

DJUSD Bond Project at Your Neighborhood School

Dear Neighbor,

Design planning is now underway for the new Davis Senior High School (DSHS) STEM Building and Aquatic Center, which are both tentatively scheduled to be completed by Fall 2023.

The DSHS Aquatic Center is proposed to be constructed adjacent to the New Gym and will include a 25 yard x 50 meter pool, 17 lanes, two - 1 meter diving boards, space for two regulation floating goal water polo courses as well as changing rooms, restrooms, equipment room, deck space, and spectator space.

The new DSHS STEM building has a prospective accommodation of twelve - 1,440 sq. ft. lab classrooms. This new and improved space will also include a large collaboration space of 2800 sq. ft. as well as prep rooms, restrooms and storage. The CTE Grant will help to construct two new Robotics classrooms and enhance two existing classrooms, expand existing Automotive facilities and will modernize existing Agricultural facilities.

Virtual Community Outreach Invitation

To protect the health, well-being, and public safety of students, employees and community members and consistent with orders from the State of California and guidelines from Yolo County, DJUSD Bond Program Community Outreach meetings cannot be held in person. To share information about the facility improvements at Davis Senior High School, a pre-recorded presentation has been posted on the Bond website at www.djUSD.net/bond/outreach.

Public comment, questions or concerns about this project are welcome and encouraged. We will be reviewing feedback emailed to facilityplanning@djUSD.net until the end of the public comment period on April 7, 2021.
